- ❖ **Libraries :**   React , BootStrap
- ❖ **Web Development** : HTML, CSS, JavaScript,
- ❖ **Database** : MySQL
- ❖ **Tools** : SQL, Git, GitHub, VS Code,Raplit

PROJECTS

- ❖ **SPOTIFY – A Music Web App**
  As part of my ongoing journey in web development, I undertook a comprehensive project to replicate the fun design aesthetics of Spotify, one of the leading music streaming platforms. Leveraging my proficiency in HTML and CSS, I embarked on creating a Spotify Clone Web Project that not only showcased my technical skills but also demonstrated my ability to deliver user-friendly interfaces.

- ❖ **STUDIO WEB – PAGE**
   developed a Studio Web Page project using HTML and CSS to showcase my skills in web development. The project aimed to create a professional and visually appealing online presence for a fictional studio. Here's a simple breakdown of the project

- ❖ Simon Says Game
  Developed a mini game inspired by the classic Simon Says, using HTML, CSS, and JavaScript. The game challenges players to repeat sequences of colors, enhancing memory and attention skills. Implemented responsive design for a user-friendly experience across devices.

ACHIEVEMENT

- ❖ **NSS volunteer | T N B Collage Bhagalpur**
  (2019-2022)
  As a NSS volunteer I had participated in many camp, but one of the most important camp that I have participated is in national level adventure camp in AVBMAS (Manali Himachal Pradesh) .
